"Mankind in Amnesia" has to do not only with the past, like my other books -- primarily it has to do with the future, a future not removed by thousands or tens of thousands of years, but the imminent future, on whose threshold we now stand." Immanuel Velikovsky on Collective Amnesia

BLACK SWAN, 2007 by Nassim Nicholas Taleb

Critical keyword for 2011-2012:

A Black Swan Event:

The impact of the highly improbable:

- *It is an outlier, as it lies outside the realm of regular expectations, because nothing in the past can convincingly point to its possibility.*
- *Second, it carries an extreme impact.*
- *Third, in spite of its outlier status, human nature makes us concoct explanations for its occurrence after the fact, making it explainable and predictable.*
- Black Swan - dormant DNA manifesting totally-

- *Black Awakening* type events – totally unexpected based on past events EXCEPT and UNLESS familiar with Scripture -
- Multilevel and multiscale tipping point - dark matter - dark genes - antigenesis –
- World of false peace or PIECE or world of fragmentation to be bound together artificially

2010: those were the days
A transformation began

Consider then the message from two of nature’s most exquisite representatives: the elegant swan and the fluttering butterfly (the monarch in particular). By appearances, the most unlikely of all to transform, the comely to the incomparable, and yet seemingly opposed to the laws of physics.

Message of Gabriel’s Fist:

A message communicated by a blow from the fist has no pretense of delicacy: seeing it coming can serve as a “wakeup,” as foreknowledge precedes it: precursor energy before actual impact, the effect will a it is served with intent and delivered with violence: a harbinger of strong judgment crashing through.

But is it more? “*Fist*” has linguistic roots in the German, “*Faust*.” The Chicago alternative rock band, Veruca Salt's "Wake Up Dead,” suggests a midnight stroll with Mephistopheles.

Mephistopheles, it is believed by literary scholars to suggest a derivation from the Hebrew *Mephistoph*, meaning “**destroyer of the good**,” or possibly, a combination of the Hebrew words *mephez* (“**liar**”) and *tophel* (“**destroyer**”).

Thusly, using four letters presents something far more than a judgment of Earth: *Gabriel's Fist* is the point of initiation, a blow delivered for the purpose of transforming. The notion that the collective humanity is informed of risk at multiple levels affirms that it does not have to GO wrong to BE wrong, and a *message from Gabriel to the transformer Mephistopheles*, the Faustian bargain, communicates that the deal with the devil is heating up: and the *gloves are off the fists*.

In his commentary on Isaiah and the judgment of Babylon and Lucifer, Calvary Chapel pastor David Guzik presents [Isaiah 14](#):

c. Son of the morning: This is a title of glory, beauty, and honor, which fit Lucifer well before his fall. The morning is glorious, and in Hebrew thinking, the son of "x" is characterized by "x." So, before his fall, Lucifer was characterized by the glory of the morning.

2011: Days of Jared

In a bizarre twist, on January 16, 2011, the CBS program *60 Minutes* presented a troubling snapshot, [The Tuscon Shooting, Descent into Madness](#) a documentary profiling the life of Jared Loughner, who is charged with the killing of six and wounding of 14 others, including Rep. Gabrielle Giffords on January 8, 2011.

It would seem that we are hearing echoes from another dimension: *flashforwards* of transformative events.

The extra-canonical books [Jubilees](#) and [Enoch](#) are considered to be reliable historical texts and it was in the days of Jared, which means 'descent,' that the Watchers descended.

*And in the second week of the tenth jubilee Mahalalel took unto him to wife Dînâh, the daughter of **Barâkî'êl** the daughter of his father's brother, and she bare him a son in the third week in the sixth year, and he called his name Jared;*

for in his days the angels of the Lord descended on the earth, those who are named the Watchers, that they should instruct the children of men, and that they should do judgment and uprightness on the earth.

*And in the eleventh jubilee Jared took to himself a wife, and her name was **Bâraka**, the daughter of Râsûjâl, a daughter of his father's brother, in the fourth week of this jubilee, and she bare him a son in the fifth week, in the fourth year of the jubilee, and he called his name Enoch.*

SUBTLE WHISPERS, April 29
The sorcery of Walpurgisnacht

On September 24, 2009, an ABC television demonstrated the prevailing levels of penetration and preparation within contemporary culture with the premier of FlashForward:

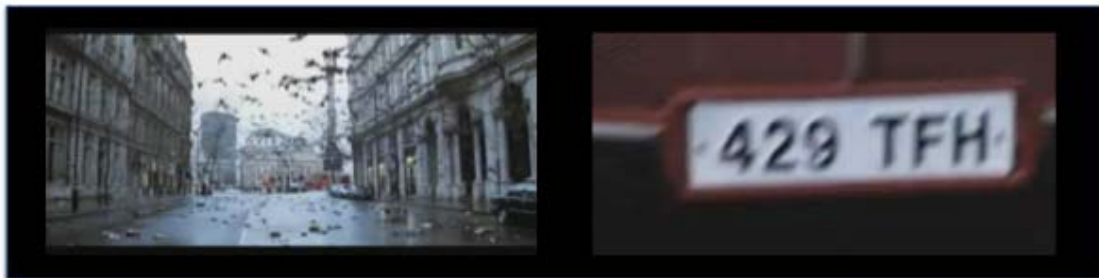

*“On October 6th, the planet blacked out for two minutes and seventeen seconds.
The whole world saw the future.”*

In the 1999 novel FlashForward, by Robert Sawyer, mankind is propelled 21 months into the future as a result of an ALICE experiment at the CERN laboratory in Geneva, Switzerland. The LHC, Large Hadron Collider at CERN a research facility for the study of high energy physics and electromagnetics. For the ABC television series, the time flash is limited to six months, *April 29, 2010*, to the eve of Walpurgisnacht, a festival of bonfires and sorcerers, when the souls of the dead are briefly released to wander until just before May Day, Beltane.

In episode four of FlashForward, Black Swan finishes with a *flashback* to a 1991 Somalian village as thousands of black birds cluster and fall to the ground.

The Core, 2003

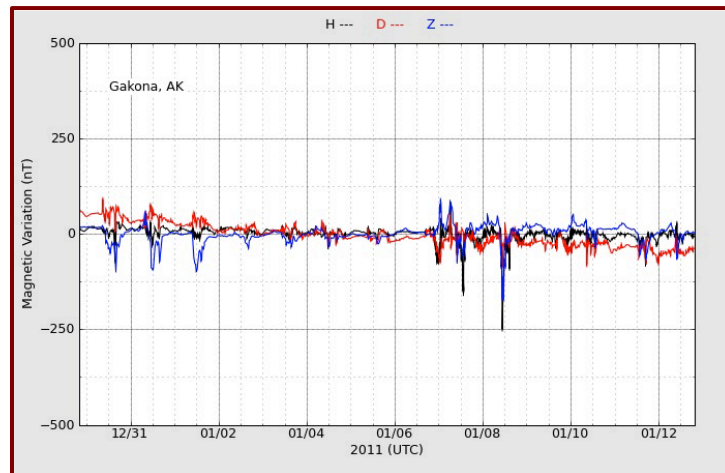

The 2003 movie, *The Core* which opened with dead birds and multiple electromagnetic failures featured HAARP type activation through "Project DestiNI" with potentially catastrophic consequences. The vehicle used to penetrate to the center through the crystal fields, is ominously named *Virgil*.

The YouTube clip of **The Core, Introducing Virgil** with the explanation references "*Virgil, the poet that went to hell....here's to Virgil!*" The troubling aspect of this is that the motto of the US Great Seal, **Novus Ordo Seclorum** is from this same Virgil's Fourth Eclogue, invoking Sibyl, the priestess for the oracle of Apollo (Apollyon).

A deliberate, controlled and fragmented/dissociative release of content and data (versus ordered information) produces a fragmented consciousness preventing rational organization and response. This process has been organized and underway for centuries, accelerating exponentially in the past decade.

These prototypical predecessors have not been lost on events of late 2010 and early 2011 with the massive global animal deaths, beginning in *Beebe, Arkansas* as suggested by a number of alternative news sites. It is of note that many of these animal death anomalies take place near large deposits of quartz crystal mines and geomagnetic nodal points, and that otoliths within the vestibular system of animals are exquisitely sensitive to gravity, frequencies and ionic disturbances.

HAARP activity, 12.31.2010 – 01.08.2011

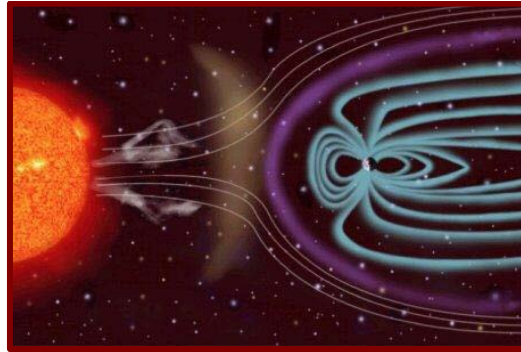

This tuning of frequencies would in fact align with the very real phenomenon of *Ley Lines*, popularly described by *Alfred Watkins* as lines of electromagnetic energy crossing the grids of the Earth and forming 72 nodal points, which frequently reveal archaeological evidence of layering of cultures and time periods over specific areas. The concept of a planetary energetics explains the role of electromagnetism attraction from the consistency of ancient Neolithic structures as stone circles, barrows, chalk hill figures and ancient monuments.

Within the realm of quantum theory which examines matter at a subatomic level, this would then apply to the micro and the macro: from the smallest of the discrete units, to a hierarchy of quanta of similarly shaped and electrically powered clusters at a galactic and cosmic level.

The logical conclusion of fractal self-similarity should (and could), lead only to the acknowledgment of a purposeful and organized original creation, which, at some point in the temporal past, was interrupted by deliberate action precipitating multiple catastrophisms and the subsequent *descent* of not only the human species but *the creation as a whole*, which again points to both Genesis 3 and the *Days of Jared* as the antecedent events.

Similarly, in a January, 2011 broadcast of *Coast to Coast AM*, guest *Steve Quayle* noted that there are 72 ionospheric heaters similar to the HAARP facility in Gakona, Alaska. This number would correspond with the *72 nations of Genesis 10* as being under the influence [powers] of the 72 regents of the fallen hierarchy and the 72 quinaries of the degrees of the zodiac in Kabbalistic teaching.

Cosmic Rays effects on the Earth:

The Earth has a magnetic field, which is generated by electric currents in its core.

Ludwig Klein of the [Neutron Monitor Database](#) describes the mechanism by which cosmic rays affect the planet Earth,

On their way to Earth cosmic rays encounter the Earth's magnetic field and, if they succeed to go beyond, the atmosphere. The magnetic field is shaped by electric currents in the Earth's core and by the solar wind. Cosmic rays coming from outside will undergo complicated trajectories in the magnetic field and may even be prevented from getting access to the atmosphere, if their energy is too low. The filtering by the magnetosphere gives us the possibility, using neutron monitors at different locations, to derive the spectra and arrival directions of cosmic rays.

EVENTS off YEMEN/ADEN:

June 30, 2009 Airbus 310: Child found alive, enroute from Yemen to Moroni, Comoros Islands (one of 153 onboard)

Capt. Mohammed Abdel Rahman Abdel Qadir also told reporters that a child who was reported found alive was a 5-year-old boy. He did not give further details of the child's condition.

*The Airbus 310 went down early Tuesday, carrying 142 passengers and 11 crew members on a flight that **originated in Yemen's capital, Sanaa**. Qadir said the jet took off from Sanaa shortly before 10 p.m. Monday and vanished from radar when it was about 16 miles from Comoros' capital, **Moroni**.*

It was the second crash involving an Airbus jet in a month. On June 1, an Air France Airbus A330 crashed off Brazil while en route from Rio de Janeiro to Paris, France. All 228 aboard are presumed dead. The cause remains under investigation.

January, 2011:
South Atlantic Anomaly, Magnetic pole reversal?

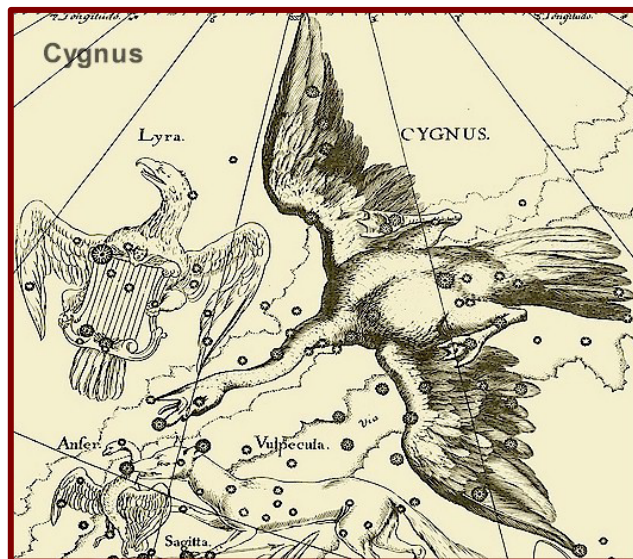

The South Atlantic Anomaly (SAA) is known to be growing in extent and spreading westwards from South Africa, as the Earth's internal magnetic field rapidly weakens in this region. This may be early evidence of a forthcoming reversal in the direction of the Earth's internal magnetic field.

We do not know in detail precisely what occurs during such reversals, including the changes observed in the magnetic field and the time a reversal takes to complete. However these factors are important in knowing where the radiation risk may be increased and how the atmosphere might respond.

Air France, 447, May 31 - June 1, 2009, enroute from Brazil to Paris

Flight 447 failed to answer calls from controllers about 3.5 hours after its departure from Rio de Janeiro, and following an encounter with thunderstorms and strong turbulence. At 2:14 GMT, the A330's Aircraft Communication Addressing and Reporting datalink System (ACARS) indicated an electrical system failure. Other reports, unconfirmed, say the aircraft suffered "multiple catastrophic failures," but what type of failures and on what aircraft systems is yet unknown.

THE CYGNUS EVENT

Andrew Collins, author of *The Cygnus Mystery* examines the reverence and importance of the Constellation Cygnus in ancient traditions and lore and reviews the evidence of Cygnus' role as a CERN-like "cosmic accelerator" producing high energy cosmic particles and their quantum effect. This is described in the author's website:

Montgomery's 'Cygnus Event'

The March 2006 issue of ASTRONOMY NOW cites the findings of British anthropological writer Denis Montgomery. In 1995 he proposed that high levels of Beryllium-10 in the Antarctic and Greenland ice cores for a period of 2,000 years, c. 35,000 BP, argue that sudden transitions in human behaviour patterns around this time show that the two events are not exclusive to each other.

Based on suggestions made by American and Russian scientists working on the Greenland and Antarctica ice cores at the beginning of the 1990s, Montgomery proposed that the source of the cosmic rays was a close supernova, most likely the one that caused the beautiful stellar debris caught on camera by the Hubble space telescope and known to astronomers as the Cygnus Veil, or Cygnus Loop.

*There seems little doubt that **Cygnus X-3** is an exceptional source of cosmic radiation both of the range which is well understood, but of a new type, the 'cygnets', which demand further study. Perhaps there are more kinds of electro-magnetic forces and sub-atomic particles which have yet to be identified and which bombard Earth from enormously powerful sources.*

Collins and others point out that Cygnus X-3 is not in any way unique. A number of similar binary systems have been recorded. The relevance of Cygnus X-3 is that its blazar jet happens to be aimed directly at us. The term BLAZER' applies to a STELLER [star] source with a jet pointing our way.

Located in the right wing of the celestial swan, the shock waves of this cosmic event were believed to have ripped open the Earth's protective layer of ozone, causing cosmic rays and ultraviolet radiation from the sun to rain down on the unsuspecting world beneath. For many years the exploding star would have been brighter than the full moon, making it a blinding light source that turned night into day.

Premature deaths, cancer and mutations would have resulted in both animals and humans on a massive scale.

Reading Culture

Predictive Programming

Drawing on decades of social pattern research, authors of the 1997 bestseller, *The Fourth Turning*, William Strauss and Neil Howe predict that early in 21st century,

"An initial spark will trigger a chain reaction of unyielding responses and further emergencies. The risk of catastrophe will be very high. The nation could erupt into insurrection or civil violence, crack up geographically, or succumb to authoritarian rule. If there is a war, it is likely to be one of maximum risk and efforts — in other words, a total war."

A cursory reading of the above suggests that, by these calculations, planet Earth is overdue and a more literal examination perhaps communicates the mechanism: “*an initial spark.*” The concept of interpersonal communication by this very means is addressed in a 2002 *Journal of Theoretics* article, *The Human Electromagnetic Energy Field*.

In 2009, *Popular Mechanics* with an impressive record of pre-emptive spin regarding contemporary politics and science acknowledged that, “*We have electrical and magnetic fields, but we don't give off electrical charges.*”

The Occult Interpretation of the Movie **BLACK SWAN** and Its Message on Show Business

*If you have not read other articles on this site, **trauma-based mind control – also known as Monarch Programming** - is the process in which an individual is subjected to intense trauma and dehumanization in order to cause a mental dissociation. This causes a fragmentation of the slave's personality and enables the handler to create an alternate persona that can be programmed at will. Some researchers claim there are occult elements at work in this process.*

“Project MONARCH could be best described as a form of structured dissociation and occultic integration, in order to compartmentalize the mind into multiple personalities within a systematic framework. During this process, a Satanic ritual, usually including Cabalistic mysticism, is performed with the purpose of attaching a particular demon or group of demons to the corresponding alter(s). Of course, most skeptics would view this as simply a means to enhance trauma within the victim, negating any irrational belief that demonic possession actually occurs.”
Ron Patton, *Project Monarch*

Swan Lake

Ancient war gods, separated by time, geography, language and culture are mustering through hedonistic arrogance. Now battling among themselves for dominance, taking hostage the human race while using it as foot soldiers before being discarded as pawns, these dark spirits know of a coming date. It is revealed in Revelation 19:19 and consummated in Revelation 19:29, in another lake entirely: this one of fire.

Imagine the Tuscon event of January, 2011. And then imagine it on an exponential level. Every type of killing spree will be happening in every city, at the same time along with many other things, bombings, crippling of the water supply, crippling of the electrical grid, sabotage in the military, government and law enforcement; the elimination of resisters.

*As bad as some things we have seen, this will be on a global level, and they are only sparks before the fire. Within the context of a **Black Swan** event, the **Black Awakening** will strike even harder: it will break through the dimensions with such a presence and manifestation of the demonic that it will be like a soot you can feel – and perhaps see, as it happened in Egypt. Russ Dizdar, *Shatter the Darkness*.*

The mirroring, the black/white duality, SRA, DID, drug use and repetition are classic mind control methods: even the music and the resonance: Pyotr Ilyich Tchaikovsky's classic ballet is recognized within this dark world of mind control.

This dark duality of nature is written within every molecule of the creation and into the very DNA of life and will manifest in consciousness, both individually and collectively, coinciding with externalities as destructive simultaneous events in personal lives and surroundings encroach.

This once dormant darkness will awaken (as illustrated by the nature of the black swan, in itself a biological confirmation) and while advancing incrementally under normal circumstances, this surfacing beastly nature will be encouraged, enhanced and accelerated by the spirit of lawlessness. This becomes sequential pattern of hierarchal order which manifests in communication, behavior and choices.

Mentalities

*Schools, Flocks and Herd
Flight, fright, freeze?*

The association with gods and goddesses is prevalent in classical mythology, foremost in Greece where *Zeus disguised himself as a swan* in a union that produced Helen of Troy. A considerable amount of *Nordic myth centers upon the swan* as symbols of fidelity, peace, sorrow and death.

A legend of the swan song has its root in the belief that the mute swan sang but once in its life, just before death. Many cultures practiced the death ritual of excarnation, a funerary custom of removing the flesh, in some cases by allowing birds of prey to pick the flesh the deceased. Archaeological evidence in the Middle East, Europe and Asia shows the cultural veneration of birds as the mechanism of transport for the soul in the afterlife.

The *Northern Cross* as part of the constellation Cygnus and is seen diving to Earth, and what the cross has done for humanity on an earthly level, Cygnus, a black swan, serves as the celestial antipode.

Tucked within familiar culture has been a sublime and arrogant jab to the cross of Calvary: removing the Christ from *Christmas* and replacing it with an X.

This transformation, the synthesis of gaia worship, is embodied within the rising of the Jezebel spirit, in similar fashion to a volcano: the steam is released, the cosmic egg is hatched, and the dark order of the ages released. As with all pregnancies, the initial stages are hidden, but with progression, becomes both familiar and tolerated, until full-*term* which Wiki projects as omega.

PLANET X

A tempest in a teapot or catastrophe of Biblical proportions?

The ancient Sumerian *Nibiru* means “*Planet of the Crossing.*”

With the notable exceptions of *Svalbard Seed Vault*, and the government of *Australia*, the global community has taken a sarcastic, or perhaps measuredly protective, position regarding the dissemination of information as it applies to a possible near-term encounter. Since its discovery in 1982, Planet X was acknowledged by NASA, and in 1983, the *IRAS* (Infrared Astronomical Satellite) detected a large object in deep space and the JPL deemed it newsworthy on several occasions.

A review of keywords in the description of a *Black Swan* event and note that they very closely speak of this.

A Black Swan Event:

The IMPACT of the highly improbable:

*It is an **OUTLIER**, as it lies **OUTSIDE THE REALM** of regular expectations, because nothing in the past can convincingly point to its possibility.*

*Second, it carries an **EXTREME IMPACT**.*

*Third, in spite of its outlier status, human nature makes us concoct explanations for its occurrence after the fact, making it **EXPLAINABLE** and **PREDICTABLE**.*

IMPACT
OUTLIER
OUTSIDE THE REALM
EXTREME IMPACT
EXPLAINABLE
PREDICTABLE

“Today, nothing is more important to the future and credibility of science than liberation from the gravity-driven universe of prior theory. A mistaken supposition has not only prevented intelligent and sincere investigators from seeing what would otherwise be obvious, it has bred indifference to possibilities that could have inspired the sciences for decades.”

Talbott Thornhill, *Thunderbolts of the gods*

next, part two:

While the physical manifestations will continue to destabilize, the whole earth reeling to and fro, the only stability that will prevail will be found through the spiritual.

THE ANTICIPATION BUILDS,
Planet X advances, and

HELL FROM BELOW IS MOVED to MEET THEE AT THY COMING:
it stirreth up the dead for thee, even all the chief ones of the earth;
it hath raised up from their thrones all the kings of the nations.
